Director
Intelligence Community Staff

11 March 1982

NOTE FOR: DDS&T

SUBJECT: STAP

Les:

I am going to try to see Bob this afternoon or tomorrow morning so that I can get this memo through him to the DCI by late tomorrow as promised. The changes you suggested have been incorporated. I handled the highlighting of continuing and a permanent Executive Secretary in a footnote because all the other recommendations refer to departures from current policy. Also, on second thought, I prefer the memo to come from me alone because of STAP's association with my Staff. I did, however, add a concur line for you as well as a statement that you are willing to associate yourself with the assessments and recommendations. I hope this suits you.
